Integrative Health Care

We believe that good health is a combination of factors – one that includes both fitness and rehabilitation. Our facility combines a state-of-the-art fitness centre and physical rehabilitation clinic under one roof.

This approach to health allows our clients, practitioners, and personal trainers the opportunity to make exercise therapy a vital component in recovery from injury and build sustainable treatment programs. This unifies what is often a fragmented effort in the rehabilitation industry and creates positive outcomes for clients. Learn more about us at heritagefitness.ca.
